To File _____

Exe Board

Dear Louis:

As a matter of general interest, the Postal Service intends to test various models of flat tubs for use by city carriers in delivery units in and around Merrifield, Virginia.

The purpose of this test is to identify delivery equipment that can better accommodate the increase in package and small parcel and roll (SPR) volume.

The test is scheduled to run through the month of December. We have enclosed illustrations of the various flat tub models for your reference.

If you have any questions concerning this matter, please contact John Cavallo at extension 3804.

Sincerely,

Alan S. Moore
Manager
Labor Relations Policy and Programs
